

THE PIOCHE RECORD

ESTABLISHED SEPT 17, 1870.

PIOCHE, LINCOLN COUNTY, NEVADA, JUNE 3, 1916

VOLUME XLVI; NUMBER 38.

Governor Speaks At Ely Automobile Meet

The annual meeting of the Nevada State Automobile association was held in the city hall in Ely on Tuesday last and was attended by representatives from the different parts of Nevada and California associated with the association.

President C. G. Patrick was authorized to appoint a committee to encourage all automobile clubs throughout the state to become affiliated with the state association. A committee will be appointed to appear before the next legislature in Carson City with a view of having uniform legislation adopted for the benefit of roads throughout the state.

Governor Boyle was present and addressed the club. The governor suggested that the committee appointed be impressed with the advisability of getting together on important questions and thereby be in a position to submit to the lawmakers certain matters which would not meet with opposition from the different sections. He referred to the Shackelford bill now pending in congress and under the terms of which some eighty-five millions of dollars would be expended throughout the United States, but called attention to

the fact that if Nevada was to receive the benefit to which she would be entitled under the bill in the event of its final passage, certain things must be done by the state legislature, and in view of this urged that the legislative committee formulate and agree upon the best line of action for the entire state.

The following directors were elected: G. S. Hoag and B. L. Quayle of Ely; W. W. Watterson and W. G. Scott of Inyo; C. G. Patrick and C. E. Redman of Goldfield; S. R. Moore and W. B. Evans of Tonopah.

Many valuable suggestions were made by A. H. Jones, superintendent of the Tonopah-Belmont mines at Tonopah, and V. L. Ricketts, editor of the Goldfield Tribune, and Mayor A. B. Witcher of Ely.

At the directors' meeting the following officers were elected for the ensuing year: President, C. G. Patrick, Goldfield; secretary, C. S. Hoag, Ely; treasurer, S. R. Moore, Tonopah; vice-presidents, W. G. Scott, Bishop, Cal.; W. B. Evans, Tonopah; A. H. Howe, Goldfield; and B. L. Quayle, Ely.

The next meeting will be held at the call of the president.—White Pine News.

Campbell Properties Down At Goodsprings

Early in the spring of 1884 Allen G. Campbell, then operating the Horn Silver mine at Frisco, Utah, being attracted by reports of rich lead finds at Goodsprings, made a short visit to this district, and after a survey of the possibilities of the country returned to Utah and outfitted an expedition which returned to Goodsprings and thoroughly prospected the country for lead and silver. Many claims were located, the location work done and recorded, and in succeeding years Mr. Campbell sent crews of men from Utah to do the required assessment work on these claims. About 1894 he had the greater part of these claims surveyed for patent, 22 of them eventually being granted the final papers by the government. Some shipments of ore have been made from these claims, but as the owner could foresee that a railroad was necessary for the profitable transportation of the ores, they were allowed to lie dormant until a railroad was built into the country.

In 1902 Mr. Campbell died. The railroad he required was not built until three years after his death, but subsequent events have demonstrated that his contention that the property would be valuable with the coming of the railroad has been proved to be correct.

After his death his estate was involved in litigation for a number of years, but the courts finally confirmed his will and allowed the properties to be worked by his widow, the administratrix under the will, now Mrs. Eleanor C. O'Kelly. His sons, Allen G. Campbell, Jr., and Bryan Campbell and Frank C. O'Kelly, are now managing the property for the estate.

One of the most profitable of the claims of the estate is the New Year, which until May 1st of this year was leased to Frederickson & Whitney, during the life of their lease they shipped from 700 to 800 tons of high-grade zinc. This claim is located at the top of a mountain peak between Big and Little Devil mountains, and the ore had to be packed on burros for a mile and a half down a steep trail before it could be loaded into trucks for transportation to Jean. At the expiration of this lease the estate, under the direction of Bryan Campbell, is working the property and is taking out good ore.

Under the terms of the will of the late A. G. Campbell, the estate cannot be distributed until the youngest child is of age, which will not be for about three years. In the meantime the estate can be worked under the direction of the administratrix.—Goodsprings Gazette.

Base Ball Game Is Scheduled For Sunday

We are going to have some sure-enough base ball. Next Sunday evening is the time; Fuller Park is the place. The Consolidated Nevada-Utah boys are coming down to wallop the daylighters out of the town bunch—that is, if they can—and they declare that there is no room for argument. Of course, they are counting on Concannon, that long lanky chap who won the game for Las Vegas over Pioche about a year ago. They remember how Con played then and they are figuring that he will deliver the goods this time.

Nevertheless the town lads are not frightened. They say Bowling has a better arm this year and that he is going to get revenge from Concannon in the game tomorrow. They are

shouting: "Just watch Bowling!" put one over on Con. Bowling is going to pitch for the town nine, even if he has to build a concrete bridge over Whitney creek to get to Fuller Park.

The line-up for the game is as follows:

Town Bunch

Bowling, p.; Fox, c.; McNabb, 1b.; Bambric, 2b.; Scott, 3b.; Clark, ss.; Lloyd, rf.; Williams, cf.; Boyd, lf.; Campbell, sub.

Nevada-Utah Bunch

Concannon, p.; Peterson, c.; Van Wagenen, 1b.; Fieldson, 2b.; Snyder, 3b.; Franklin, ss.; Neilson, rf.; Neilson, lf.; Price, cf.; Bleak, sub.

The game will be called at six o'clock p. m.

NEVADA-UTAH MILL WORKING STEADILY

The Consolidated Nevada-Utah mill has been running this week without a halt and, according to Sup't VanWagonen, the plant is making an excellent account of itself.

The mill is being operated with a total working force of 15 men for all three shifts. On the day shift five men, including the mill foreman and crusher man, are employed; while on the other two shifts, three men and the shift boss constitute the mill staff.

A schedule has been arranged to shut the plant down Sunday afternoons for the purpose of going over the belts and machinery and making such alterations and repairs as may be needed.

An order has been placed for another Deister concentrator which is to be installed on the concentrator floor. This table will enable a better capacity for flotation tailings and raise the percentage of extraction.

APPOINTS TRAPPERS TO DESTROY COYOTES

R. E. Ward, predatory animal inspector for the government, arrived in town Thursday morning and left on the Garrison auto stage for the northern part of the county for the purpose of appointing several men in that section to trap coyotes.

Mr. Ward states that the work of exterminating coyotes in the northern counties of the state has been progressing very satisfactorily and that at the present time the government has 147 hunters in the field in this state—all in the northern counties. No cases of rabies have developed as yet in Lincoln county and the number is decreasing in the northern sections.

ESMERALDA COUNTY IS ALLOWED TO BORROW \$10,000

At a recent meeting of the state board of revenue the application of the commissioners of Esmeralda county for permission to borrow \$10,000 was granted. The money has been borrowed to take up the county school bonds that mature July 1, pending the result of suits arising from the payment under protest of taxes not due.—Goldfield Tribune.

Mrs. Nelson Baker expects to depart for Salt Lake about the middle of the month, accompanied by her children. They expect to locate there so that the young folks can get the advantages of the Salt Lake City schools.

Miss Hazel Baker, who was the instructor in the Prince school for the past two years, left Thursday for her home in Utah to spend the vacation months. Miss Baker has been engaged to teach at Caliente next year.

L. Scherzinger, a former Pioche business man, was in town this week.

SAM EUBANKS HAS UNPLEASANT EXPERIENCE

A letter received a few days ago from Mrs. S. B. Eubanks, now located at Chico, Calif., contained the information that her son, Sam, recently met with an accident which might have resulted seriously. The young man fell out of the top of a tall tree; landing upon his back on the ground.

The shock from the fall kept Sam under the doctor's care for several days. He has fully recovered now which the many friends of the Eubanks family in Pioche will be glad to learn.

TWO ELYITES ARRESTED ON SERIOUS CHARGES

Mike Bernstein was arrested on Friday in Salt Lake City at the request of Sheriff Crain. Bernstein has been engaged in tungsten mining with C. L. Osterlund, A. B. Witcher, Dr. I. Alexander and Charles Wilson. According to the complaint made by the partners, Bernstein has appropriated the net proceeds of valuable tungsten ore to his own use. It is reported that he will fight extradition from Utah. Undersheriff Jackson will leave tomorrow morning with the papers to bring Bernstein back to Nevada.—White Pine News.

GOLDFIELD JUDGE WANTS STATE OFFICE

J. Emmet Walsh, district judge of Esmeralda county has announced his candidacy for the Democratic nomination for justice of the supreme court. This makes two in the field on the Democratic side, Judge Geo. A. Bartlett being the other. Judge T. F. Moran of Reno is the only one mentioned on the Republican side.

UNION OF CLUBS IN NEVADA IS PROPOSED

The convention of all commercial organizations of Nevada to be held at the Reno Commercial club on June 16 and 17 is creating considerable interest throughout the state. It is expected that one of the largest boost gatherings ever held in Nevada will result from the call for the meeting.

Among the questions which will be discussed will be the organization of the clubs of the state into one unit which will put the resources of Nevada as a whole, before possible investors and to form a state body which can act as a clearing house for all constructive advertising.

PAPER AND PRINTING MATERIALS ADVANCE

The printing trade is being hard hit by the advances in prices on materials due to the European War. Hardly a week passes without notice of some advance. Last week the paper houses gave notice that all previous price lists were wholly cancelled, while the linotype metal supply houses quoted a price of 60 per cent higher than those in force 15 months ago.

The Hodges-Cook Mercantile Co., has erected a new awning in front of its store. This, with the addition of the cement walk, makes a decided improvement.

Tungsten Camps Astir In White Pine

White Pine county is having a big tungsten boom and the following items from the Ely Record are of interest.

On Tuesday last the first unit of the Consolidated Tungsten company mill, which company is operating properties about two miles south of the U. S. Tungsten, went into commission, and has been running steadily since that time. The first unit has a capacity of about 20 tons a day, but it is the intent of the management to add two more units to the plant in the near future, after which it will be prepared to handle about 60 tons of ore daily.

The last piece of machinery for the new plant of the Independent Tungsten company of Sheelie left Ely Monday morning, and is now probably in place, hence it is a question of but a few days until this new and modern concentrating plant, with a capacity of 30 tons daily, will be in operation. The management has met with a number of unavoidable delays in the erection of the plant, caused by the failure of the machinery houses to comply with their contract, but in the meantime development work was continued on the mines, which are now in splendid shape for production. It has been announced that this new plant will treat custom ores, of which there is a large tonnage in the Sheelie district.

Grover Tilford arrived in Ely Wednesday last from the Tilford Bros. camp at Sheelie, and reports that the heavy snow which fell there during the week filled up the open ditch through which the water supply was secured for the milling plant, which afforded a good excuse for him to close down for a few days and come in for needed supplies. Since the mill was started it has been averaging about 100 pounds of concentrates per day, which are still carried in stock, as no sales have as yet been made. During the last week a small milling test was made from the mines of Baird Bros., which proved most satisfactory.

MINING COMPANIES HOLD THEIR ANNUAL MEETINGS

Meetings of stockholders of the Ely Valley and Horn Silver Mining companies were held a few days ago and when officers were chosen for the ensuing year.

The officers and directors of the Ely Valley company are: W. E. Har-

risson president; C. J. Warren, vice-president; E. C. D. Marriage, secretary and treasurer.

Horn Silver officers and directors are: W. E. Harrison, president; John L. Whipple, vice president; E. C. D. Marriage, secretary and treasurer; who, with Geo. W. Franks and C. J. Warren constitute the board.

JUDGE COLEMAN PAYS VISIT TO PIOCHE LODGE

Judge Ben W. Coleman, grand master of the Nevada Grand Lodge of Masons, paid an official visit to St. John Lodge No. 18 last Saturday evening. The grand master was greeted by a large number of members, several coming from Bullionville and the Prince mine. The visitor delivered an interesting and instructive address which was greatly appreciated by those present.

Judge Coleman left for Ely Sunday morning to visit the lodge there officially on Monday evening. At the latter place, the grand master was presented with a trowel made of copper produced from the mines of the great White Pine camp.

ORE SHIPMENTS FROM DISTRICT THIS WEEK

Ore shipments made from Pioche this week amounted to a total of 76 cars, as follows:

Prince Consolidated,	66
Hamburg,	2
E. & F. Mine,	2
Uvada Copper,	2
Snyder Lease,	2

The foregoing represents approximately 3496 tons.

New Display Ads This Week

Mrs. C. Buck, Hat Sale.
City Garage, More Fords.
Mac's Drug Store, Aneco Camera.

The base ball boys from up or the hill, Nevada-Utah team, had a practice meet Tuesday evening and developed some good players.

The Spoilers, shown at the Electric Movies Wednesday night drew a large audience and was well worth the price of admission.

Mrs. James Quirk, of the Prince mine, left Thursday afternoon for Salt Lake. She will return in a few weeks with her daughter, Ruth, who has been attending school in the Utah capital.

STAKE MEETINGS WILL BE INTERESTING

W. J. Flowers, superintendent of the Young Men's Mutual Improvement Associations of the Moapa Stake, has received from general headquarters in Salt Lake official notice of the annual conference of the mutual improvement associations both the young men and the young ladies, and also of the primary associations, to be held in Salt Lake June 8 to 11, says a correspondent of the Clark County Review.

The associations of Moapa Stake, of which there are six, have been working and preparing for this conference for several months, conducting contest work among local organizations, as is done throughout 72 stakes belonging to the Church of Jesus Christ of Latter Day Saints.

While Moapa stake will not have a contestant to enter the grand finals at this conference, it will have quite a large delegation present to receive the instructions and partake of the spirit and enjoyment of the occasion. Moapa Stake has now about 65 scouts registered with the national scout organization, and a larger number of workers among the girls and ladies in the bee-hive work, a very elegant organization for young ladies.

The conference this year promises to be of more than ordinary interest. During the season more than 8000 officers and nearly 75,000 members have taken part in the 700 organizations in the mountain states, which include Utah, Idaho, Wyoming, Nevada, Arizona, New Mexico and Colorado. Organizations are also established in Canada and Mexico and in many parts of the larger cities of the east and Europe, and also on the islands of the Pacific ocean.

The first day of the conference will be devoted entirely to Bee Hive and scout work. Members of the Bee Hive committee will speak on their work and point out its symbolism and significance. Among the subjects to be discussed will be hikes, summer camps, songs, yells, and the successful managing of young people. As a special feature there will be a demonstration campfire gathering held in the Deseret gymnasium.

Friday there will be meetings of the M. I. A. officers. Reports of the season's work will be presented, and the new work for the next year outlined. On this afternoon there will also be held the semi-final contests in public speaking and music.

The grand finals contest will be held on Saturday, June 10. At the close of the contest gold medals will be presented to the winners to signify their achievement; also the

church penant to the stake winning in special activities. In addition to the contests, the operetta, "Daughter of Jarius," will be presented by the combined mixed double quartette of the Pioneer Stake under the direction of Tracy Y. Cannon.

On Sunday there will be three public meetings. The first will be held in the assembly hall at 10:30 A. M., and the other two at 2 and 7 P. M. Among the speakers will be President Joseph F. Smith, Heber J. Grant, B. H. Roberts, Counselor Ruth M. Fox, Dr. Geo. H. Brimhall and Nephi L. Morris.

An excellent musical program is being arranged for every meeting. The tabernacle choir and grand organ, recently enlarged and now the largest and finest pipe organ in the world, will be heard at the afternoon and evening meetings Sunday.

Special rates will prevail over the Salt Lake Route. A general invitation is extended to friends as well as members to be present.

It is very strongly urged that all stake and ward workers be present to be instructed and enthused that Moapa Stake may have proper representation next season.

REGISTRATION OF VOTERS WILL BEGIN IN A MONTH

In response to requests from various county clerks Attorney General Thatcher has decided that registration for the ensuing primary and general election shall begin July 1. The opinion was given to clear up a misunderstanding relative to the new registration law some having been of the opinion that registration would start June 1 for the primary election to be held for the purpose of electing delegates to the several party conventions. Registration will close October 20th for the general election of November.

Goodsprings Gazette

The Record welcomes the Goodsprings Gazette on its exchange table. It is a new paper just established at Goodsprings, Clark county, by F. A. Doherty. It is a six column folio, chock full of advertising and good reading matter. It is a good paper and apparently the business interests of Goodsprings appreciate the effort being put forth by the editor to give them a live newspaper.

Miss Ruth Harrison, daughter of William E. Harrison, is expected to arrive here about the 15th inst. to spend the summer with her father. Miss Harrison is an instructor in the San Antonio Female College, at San Antonio, Texas. She visited here two years ago when she formed the acquaintance of a large circle of warm friends.
